## ABOUT ME

I'm a student working with computers and technology. I'm excited to use what I've learned in school to do a great job in an IT internship. I've studied many areas of IT and know how to use different programming languages like PHP, Java, C#, and JavaScript. I'm good at designing and developing websites and making them easy to use. I also like learning new things and working with others to create and improve cool projects.

## WORK EXPERIENCE

### Web designer

Experienced with Projects

- Developed responsive and cross-browser-compatible websites for small businesses.
- Collaborated with clients in evaluating their needs and designing Web solutions that would best fit them.
- Optimized code, and initiated best practices to enhance website performance and SEO.

### Web development

Experienced with Projects

- Produced branding and marketing materials for small businesses, including pos system, and wordpress with freehost.
- Website design and optimization for some clients using HTML, CSS, and WordPress.
- Collaborated with the clients to understand their vision and returned designs that exceeded their expectations.
